Our Staff

AllCare Health Services, Inc offers highly experienced staff. To ensure that you are receiving the very best all of our employees undergo:

License/Verification Check
Abuse Registry Check
Background Check
CPR Certification
Drug Screening
TB Test Verification
Reference Checks
Skills Testing
Periodic In-services
Supervisory Visits
Orientation that is based on your specific needs

Employees must then comply with our agency policies and our Agreement to Standards.

We protect our clients and also value our employees. Therefore, we protect our employees with workers' compensation, professional liability and bonding insurance.

Private Duty

AllCare Health Services employs health care professionals from companions to Certified Nursing Assistants. These private pay services do not require a physician's orders to begin care. Our staff develops each specific care plan with the assistance and input from the client and or family member(s).

We bring dependable, high quality personal care, companion services, and a wide variety of other services to your home. You can maintain your privacy in comfortable and familiar settings

Our home care staff is here to meet your needs, whatever they may be. One phone call to AllCare Health Services will set up a free consultation to develop a care plan specific to you or your loved one's needs.

Medical research shows that convalescence in a familiar environment can speed recovery and reduce stress, ensuring comfort. Our agency also offers a more economical alternative to the rising costs of hospitals and institutions, for convalescence or respite, short or long term.

Our services allow individuals to stay in their own homes as long as they are safe and comfortable. Our staff is on call 24 hours a day, 7 days a week. We work closely with the attending physician, hospitals and other agencies to ensure continuity of care is provided we will also assist you in your billing needs, AllCare Health Services will bill your insurance directly for you.
